PREFACE.

In this Third Volume of Warwickshire Registers is printed the remainder of the interesting volume of Franciscan Records belonging to St. Peter's Church, Broad Street, Birmingham, which has more than a merely local value.

This portion of the Register contains a list of "Reconciliati," the "Confirmati," besides the records of Deaths.

1379266

The list of Reconciliations is perhaps of interest, as indicating the zeal and influence of the Franciscan Mission which so long ministered at St. Peter's, especially in the seventeenth century, from the time of the Commonwealth onwards.

The transcription of this portion of the Register is the joint work of Mr. Whitfield and Mr. P. E. Williams, during the time that they were resident at Oscott College, where the Volume is deposited by the Rev. George Williams, the Missionary Rector of St. Peter's.

It was intended that the whole of this Volume should be filled with Catholic Records, but such others as were available for Warwickshire were too few for the purpose and it was decided that they should be left to be issued by the recently constituted *Catholic Record Society*, which under favourable auspices has lately commenced working in this field. In consequence of this decision it became needful to fill the remaining pages with six Parish Registers of the English Church, all of which date from the sixteenth century, and one of them, Bishop's Tachbrook, beginning in 1538, includes the final short period during which the English Church was in communion with the Roman See.

For this Register Mr. M. G. Hallett is responsible, and the remaining five were transcribed by Mr. Bloom, and are

issued under his supervision. Thanks are especially due to the Rev. George Williams, M.R., of St. Peter's, to whom applications should be made for certificates from the Franciscan Register, and to the Parish Clergy, named under their respective parishes, who in like manner have to be applied to for certificates from the Registers in their charge.

The same contractions have been made use of as are adopted in the previous volumes.

It is proposed that this series of Warwickshire Registers shall be continued, and the Editors venture to appeal for further assistance. It is only voluntary help which renders it possible to issue the series.

[*Note at foot of page.*] An ancestor of Father Milward (a Franciscan priest), who told me that the above Thomas Millward (when a Protestant) gave shelter to a Catholic priest, Father Johnson, in time of peril—that this good priest said he would offer his life's blood for Millward if he (Johnson) should have to die for the Faith. Father Johnson *was*

martyred (the last that suffered) and Thomas Millward became a Catholic. B. Ivers.*

* Father John Wall, O.S.F., one of whose *aliases* was Johnson, suffered for his faith at Worcester on August 22nd, 1679, after working on the English Mission for over twenty years. He was not actually the last priest put to death for his religion ; that honoured position being held by the Venerable Thomas Thwing, martyred at York on Oct. 23rd, 1680.

Father James (Anselm) Millward was one of the last members of the second Franciscan province, which he outlived. He died at Wappenbury in 1868.

Bernard Ivers, canon of Birmingham, was priest at St. Peter's from 1850 till 1880.

Marriages at Halford,

1552 to 1812.

NOTE.—The oldest volume contains all entries from 1545 to 1720, and consists of 90 leaves of parchment, which measure 13 by 5·5 ins. It has many curious entries, a few of which are given below. It is headed "The Register or Churche Booke of Hallfford for Mariages, Christeningis and Burialls, bought by Richard Buller, Junii 8 die, 1599, being then one of the churchwardens. Pd. acc. 5s. 2d., and copied out Junii ultimo die an'o sup. dict. 1600."

The early book has many interesting entries concerning the parish, commencing with a note of the presentation of the living, by the Keepers of the Broad seal of England, Oct. 6th, 1659, to George Grainger, in the room of John Horton, together with a note of his confirmation therein in 1660. At the end of the volume are notes of briefs for the town of Fakenham in Norfolk, 1660; for St. Bartholomew's Exchange, London; for Willenhall in Staffordshire; for Milton Abbas, co. Dorset; and for Great Drayton, Shropshire, 1661.

After a note of the value of the Millrent (4s. 4d. for the year 1661) is another note stating that since that year nothing had been paid up to 1673. Two briefs follow—one for Willenhall, the other for Cresswell, Staffordshire. George Grainger, the Vicar, had a poetical turn of mind, and to these briefs succeed the lines :—

"Here lyes a modell of such Pastors
Described by Paul who undertook ye cure
Of congregations all, and gave example
In Tymothie and Titus large and ample
He was no fighter Druncker nor young skollar
Nor avaritious nor ore come wth choller
Oh that the Pastor and the People too
In Apostolique rules would dwell
Whatever Sodom or Gormorrah doe
Our littell Zoar should fare well."

The next entry is a notice of the command, dated 1660, that notes of all briefs and of the sums collected should be entered in the parish register book, but that they are here entered in the parish account books. There is a further note of the Millrent :—"Forgiven to Phillip (Fearne) the yonger because he was poor." There is also a note of the rating of the town of Halforde in 1638, and a note of the parsonage glebe land.

"Exhibitum Vigorniae, 4 Jun., Gulielmus Thornhill, Eboracensis, rector, et reparator rectoriarum de Halford et Alvechurch et magnus arborum in utroque loco pro futuro plantator fuit." . . .

Next comes an entry of the death and burial of Queen Elizabeth and the proclamation of King James, with the following texts: Ps. cxiv., Num. xvi., 31-2, Josh. x., 11-2, II Sam. xviii., 2, Matt. xxii., 2-11—"For He the Lord is able by less than any of all these to overthrow all his enemies even by verie frogs and lyce to make them lye violent hands even upon themselves as Judas and Achettophell did."

"Vivat, vincet, et valeat.
Rex noster Jacobus promies.
Gloria Deo et pax hominibus."

A note by Charles Collins Crump in 1836 that he had taken the precaution to number the leaves of the register. The orchard was planted by the rector in 1804. To this succeed various records of repairs of Halforde Bridge in 1645, 1659, 1652, 1666, 1674 and 1729. And lastly is the following:—"Memorand., May 11th, 1673: That Jacob Horton of Halforde, the sonne of Thomas Horton, rector of Tredington, did give a greene velvett cushion for the use of the church and pulpit in Halforde there to continue, to the end of the worlde if it so long last."

The second volume of the registers contains only two entries, dated respectively. It consists of 13 leaves of parchment, measuring 13 by 7 ins., but there are some leaves cut out; these may have contained the weddings from 1720 to 1750, all of which are missing.

These extracts were made by the Rev. J. Harvey Bloom, Rector of Whitchurch, and are now printed, after collation with the originals, with the consent of the Rev. Anthony Laurie, M.A., Vicar of Halford.

Marriages at Snitterfield,

1561 to 1812.

NOTE.—The Marriages of this Parish are recorded in a series of five Volumes, of which the two last are official folios of printed forms, in which there are several which have never been filled in, a mark of the carelessness of the time. The position of these blanks is duly noted. Of the former Volumes, No. 1 is a parchment book measuring 14·25 x 5·5 inches, and consisting of 44 pages on which are entered Baptisms, Burials and Marriages in the order in which the events took place. It is in fair condition, but lacks the first page, which (the late Vicar informed me) was in possession of a woman in the village when he was inducted, but which he apparently did not think it worth while to acquire. It has long since perished.

Vol. II. also contains Baptisms, Burials and Marriages from 1689 to 1736, and is of similar size to No. 1, but contains two extra pages.

Vol. III. contains all entries 1740-1754, and Baptisms and Burials to 1802. It contains 35 pages, measuring 16 x 6·5 inches, and is well preserved.

Vol. V. contains Marriages from 1754-1802.

Vol. VI. those from 1802-1812. These extracts have been made and are printed with the consent of the Rev. Edmund Gayer, Vicar.

[*Note. There are two copies of the Marriages from* 1776. *In one of these, entered year by year with the Baptisms and Burials, the names of outside parishes rarely occur. In the above extracts the two have been combined, but in case of any important variant in names the variant is added in brackets.*]

Marriages at Barton-on-the-Heath,

1577 to 1810.

NOTE.—The following marriage entries are contained in two volumes. Volume I. is a parchment book of 41 folios, measuring 14½ inches by 6¾ inches. It is in excellent condition and has been rebound. The Register Bills at Worcester help to fill two entries in 1612 and 1614 which are marked in this copy with an astrisk.

Volume II. is of paper and contains 31 pages, measuring 8¾ inches by 6½ inches.

These extracts have been made by the Rev. J. Harvey Bloom, and are printed, after collation with the originals and with the Register Transcripts at Worcester, by consent of the Rev. Arthur Nettleship, M.A., rector.
